

2024 2025

ANNUAL IMPACT REPORT SUMMARY

Thanks to your support, this year we were able to invest in focus groups, listening sessions, and needs assessments to better understand women and girls in Chester County. **Together, we are integrating grantmaking and advocacy to address the root causes of barriers women and girls face**, moving toward true equity.

*I'm truly grateful to The Fund for giving me the chance to keep learning while working on **making real, lasting change** that people can feel on a personal level.*
– Emily E.

REPORT

Advocacy and Grantmaking for Human Rights and Gender Equity

Driving Change Through 3 Systemic Priorities:

EQUITY IN EDUCATION

HEALTH & SAFETY

ECONOMIC STABILITY

Programs

GRANTMAKING

\$221,000

in grants for **22 nonprofits** supporting women and girls throughout Chester County.

YOUTH PROGRAMS

Young advocates are stepping up as leaders, **shaping policy conversations**, and directing funding to local organizations advancing gender equity.

COMMUNITY-LED ADVOCACY

We joined a statewide coalition lobbying for a state-run paid family leave program to be created by the passage of the **Family Care Act** (a bill in the PA House and Senate).

Started by students in The Fund's civic engagement program, Vote 16PA aims to pass legislation for **16/17-year-olds to vote** in PA school board elections.

This initiative **promotes civic engagement**, focusing on voter education, turnout, and advocacy. It emphasizes all aspects of civic engagement through outreach, communications, and educational events to highlight the importance of upcoming elections.

Impact

ACCESS TO REPRODUCTIVE & WELLNESS CARE

2216

women received free critical medical care and prenatal and postpartum care.

GENDER-BASED VIOLENCE PREVENTION

5226

people trained in preventing and intervening in intimate partner violence.

WOMEN'S ECONOMIC EMPOWERMENT

163

young mothers received resources to help them complete high school, pursue a GED, or enroll in educational program.
