What is Philanthropy?

Philanthropy is a big word that means to give. It often refers to giving money, and can also include giving other things (volunteering your time, for example, or sharing a special skill).

The word itself is defined as a “love of humanity.” It’s a way to show kindness, to express what you care about in the world and the difference you want to make—and to do so with a gift of your money, time or talent.

A grant (or grantmaking, as it’s often called) is another word for a gift of money to an organization or individual doing good things. For instance, maybe you or your parents have donated money to a cause important to you.

Today, you will be meeting in your small groups to decide how you would like to grant out $1,000 to the non-profits presenting to you today. The decision is completely in your hands as young philanthropists!
